Dear Friends and Colleagues!

The European Group for Endoscopic Ultrasonography (EGEUS) welcomes you to its 8th biannual Meeting in Moscow at the National Center of Surgery (VISHNEVSKY INSTITUTE OF SURGERY). We have prepared a program that covers the most important topics in EUS and that aims at providing cutting edge information about the appropriate utilization and ongoing research in EUS. There will be Live Demonstrations for 2 half-days showing basic and advanced interventional EUS procedures as well as a comprehensive series of interactive round tables and state-of-the art lectures by an international faculty. There will be a Learning Centre with videos and simulators for basic and advanced EUS procedures. Participants will have the opportunity to present their research and videos at the Congress.

We hope delegates, whether novices or experts, will find the Congress informative, providing the latest updates in EUS in a friendly, interactive setting and in the wonderful Moscow pre-Christmas atmosphere.
Welcome to EGEUS 2019

Dear colleagues and friends!

Welcome to the most prominent and important event in the field of Endoscopic Ultrasound - European Congress EGEUS-2019!

This year it is holding within the bounds of the VI-th Moscow International Festival of Endoscopy and Surgery, which is a leading one-week conference on minimally invasive technologies, annually taking place in the heart of Moscow - historically famous Vishnevsky National Medical Research Center of Surgery.

Being a part of endoscopy, endoscopic ultrasound is currently the most important and developing method of both verifying diagnostics and intervention techniques in surgery, applicable for a wide range of different gastrointestinal and pulmonary diseases!

We consider it is important to develop EUS in Russia and worldwide, therefore, we are planning to hold the 1st National EUS congress next year. This time we hope you will have a productive and pleasant time in Moscow at EGEUS-2019!

WELCOME TO MOSCOW AND VISHNEVSKY NATIONAL CENTER OF SURGERY!

Dear friends!

EUS today is an integral diagnostic tool in a surgical hospital and not only! It is also the possibility of obtaining material for morphological studies from previously inaccessible tissues and organs, a method of minimally invasive treatment of a number of diseases. And today, thanks to the best and renown experts, we will touch a wonderful world of endosonography, look behind the scenes of the “theater of shadows”, we will evaluate the possibilities of this method and widely expand our knowledge!

I wish everyone good luck, new bits of knowledge and interesting discoveries!

VI MOSCOW INTERNATIONAL FESTIVAL OF ENDOSCOPY AND SURGERY

The greatest event in the field of Endoscopy and Surgery in Russia, representing the whole week of interventional endoscopy and surgery in lectures and live procedures.

09-10 December: 8th European EGEUS Congress
11 December: Advanced Interventional Endoscopy
12 December: Hybrid Laparoendoscopic Surgery
13 December: G I Oncology
14 December: Herniology (ventral/hiatal hernias)
15 December: Bariatric Surgery

CONGRESS VENUE:
A.V. VISHNEVSKY NATIONAL MEDICAL RESEARCH CENTER OF SURGERY
Moscow, Bolshaya Serpukhovskaya, 27

CONGRESS LANGUAGES:

Top-5 visiting places in Moscow

Red Square with the Kremlin being the heart of Moscow are the most famous places in Russia. On Red Square one can see: St. Basil’s Cathedral, Kazan Cathedral, Kremlin Walls, Lenin Mausoleum, Statue of Minin and Pozharsky, Resurrection Gate and the Iberian Chapel, GUM.

The State Tretyakov Gallery possesses a unique collection of Russian art which includes masterpieces which span a period of a thousand years. Nowadays the gallery contains more than 170,000 works by Russian artists from early religious paintings to modern art. For more information visit the website www.tretjakovgallery.ru.

The Bolshoi Theatre is a symbol of Russia for all time. It was awarded this honor due to the major contribution to the history of the Russian performing arts. This history is on-going and today Bolshoi Theatre artists continue to contribute to it many bright pages. More information: www.bol.theater.

Zaryadye Park is a new type of public space created by an international team of architects, engineers, landscape designers and other experts. Here the concepts of nature and technology, education and entertainment, history and modernity are united and complement each other. Zaryadye is an oasis of peace and quiet, a place of retreat from the rhythm of the city. All the attractions and new technology are delicately integrated into the landscape. The park is covered by forest, steppe and water meadows, which recreate various natural environments of the country, from the Far North to the grasslands of central Asia. More information: www.zaryadyepark.ru.

A new Alexander Rappoport’s restaurant «Voshod» has been opened in Zaryadye park. Outside the hours and the fashion, a contemporary «Voshod» restaurant enters an orbit of the collective unconscious — to a familiar, close and native culinary space where all dishes of the USSR folks are equally valuable, loved, habitual and understandable. From the gastronomic point of view, the territory of the former Soviet Union exists outside the modern geopolitical realias and independently of current maps. For more information visit the website www.voshodrest.ru.
**Gastronomic center “Zaryadye”** is a modern food market where, in eight different restaurants, dishes are prepared according to the recipes of the cuisine of the Russian regions. Gastronomic Center serves meat delicacies: brisket, balyk, basturma and boiled pork. Those who like wildfowl will appreciate goose, duck, quail on a spit, and world-famous soups. Gastronomic center sells unique delicacies from different parts of Russia. All this can be purchased as a gastronomic souvenir.

**Moscow City**

Moscow international business center also known as Moscow City is the main commercial district of the Russian capital located on Presnenskaya embankment just minutes away from the White House government building. Moscow international business center has several viewing platforms that offer beautiful views of Moscow and its environs. Each platform offers different views of the capital. The most famous restaurants in Moscow international business center the restaurant Ruski on 85 floor tower of the Oko, Sixty on 62 floor tower of the Federation, Aviator on the 52 floor of the same Tower of the Federation. For more information visit the website www.citymoscow.ru.
